

Insight Assignment (Section-1)

Ananya Rao

June 2023

1 Responsibilities of a Web Convener

The foremost responsibility of a web convener is to assist and cooperate with the web managers to build, update and manage all the apps about insight. He/She must put forward his/her ideas and creativity to aid insight's projects and help make it a success. Along with this, being a member of the insight team, one should contribute his/her best in all other initiatives and projects even if they do not come under the web domain as the most important thing to get the best is team spirit and cooperation within all the team members. The club's initiatives and projects should be conveners' priority over less necessary work (except exams and assignments :p). Last but not least, he/she should try to maintain integrity and of course a bit of humour within the team. In conclusion, the convener must dedicate himself/herself to the club to get the best results and to be of great value to the team.

2 Activities that I have been a part of!

Some of the below-mentioned activities might not be what you are looking for, and as I don't know where to limit myself so I am listing down all of them.

- Participated in Group Dance Competition on Freshie night and ended up winning 3rd position.
- Participated in Sarcasm (Sarcastic Hunt) conducted by SARC
- Participated (an Act) in Freshie Welcome (Department-specific event)
- Contested in CSE department election.
- Did a few projects. For ex. building up my own Minesweeper cricket game using HTML, CSS and JS.
- SOC and SOS.
